## LISTING OF CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Currently Amended) A system for controlling computer access, comprising:

a control unit to control access to a computer according to settings specified by an administrator for at least one user of the computer; and

a reporting unit to collect information on which <u>local</u> computer applications the respective user is attempting to access on the computer, the information being compiled in a report regarding the respective user<u>, the report being made accessible to the administrator</u>.

2. (Original) The system of claim 1, wherein the report includes a duration of time the respective user has accessed a particular computer application.

3. (Currently Amended) The system of claim 1, wherein the report includes ~~the~~ <u>identification of one or more chronological</u> times <u>in which</u> the respective user has accessed a particular computer application.

4. (Original) The system of claim 1, wherein the report includes the computer applications the respective user is denied access to according to the settings specified by the administrator.

5. (Original) The system of claim 1, wherein the report includes the computer applications to which the respective user is granted access.

6. (Original) The system of claim 1, wherein the report is in the form of a web page.

7. (Original) The system of claim 6, wherein the report provides a mechanism for the administrator to authorize the respective user access to a particular application to which the respective was previously denied access.

8. (Original) The system of claim 6, wherein the report provides a mechanism for the administrator to prohibit the respective user access to a particular application.

9. (Original) The system of claim 6, wherein the report is accessible by the administrator from a remote location from the computer.

10. (Original) The system of claim 6, further comprising:
a database remote from the computer, the database storing the report regarding the respective user.

11. (Original) The system of claim 1, wherein the reporting unit updates the report with new collected information after an occurrence of at least one particular computer event.

12. (Original) The system of claim 11, wherein the particular computer event includes the respective user logging on the computer.

13. (Original) The system of claim 11, wherein the particular computer event includes the respective user logging off the computer.

14. (Original) The system of claim 11, wherein the particular computer event includes the start up of the computer.

15. (Original) The system of claim 1, wherein the reporting unit further collects additional information on which services of a designated computer application the respective user is attempting to access on the computer, the additional information being compiled in a report regarding the respective user.

16. (Original) The system of claim 15, wherein the report further includes a duration of time the respective user has accessed a particular service of the designated computer application.

17. (Currently Amended) The system of claim 15, wherein the report further includes <u>identification of one or more chronological</u> times <u>in which</u> the respective user has accessed the particular service of the designated computer application.

18. (Original) The system of claim 15, wherein the report includes the services the respective user is denied access to according to the settings specified by the administrator.

19. (Original) The system of claim 15, wherein the report includes the services the respective user is granted access to according to the settings specified by the administrator.

20. (Original) The system of claim 15, wherein the report provides a mechanism for the administrator to authorize the respective user access to a particular service to which the respective user was previously denied access.

21. (Original) The system of claim 15, wherein the report provides a mechanism for the administrator to prohibit the respective user access to a particular service to which the respective user was previously granted access.

22. (Currently Amended) A system for controlling computer access, comprising:
means for specifying settings to regulate access to a computer for at least one user of the computer;
means for controlling access to the computer according to the specified settings; ~~and~~
means for collecting information on which <u>local</u> computer applications the respective user is attempting to access on the computer, and

means for compiling the information into a report of the respective user, the report being viewable by an administrator of the computer, the report being made accessible to an administrator of the computer.

23. (Original) The system of claim 22, further comprising:
means for specifying in the report a duration of time the respective user has accessed a particular computer application.

24. (Currently Amended) The system of claim 22, further comprising:
means for specifying, in the report, identification of one or more chronological times in which the respective user has accessed a particular computer application.

25. (Original) The system of claim 22, further comprising:
means for specifying in the report the computer applications the respective user is denied access to according to the settings specified by the administrator.

26. (Original) The system of claim 22, further comprising:
means for specifying in the report the computer applications the respective user is granted access to according to the settings specified by the administrator.

27. (Original) The system of claim 22, wherein the report is in the form of a web page.

28. (Original) The system of claim 27, further comprising:
means for authorizing the respective user access to a particular application to which the respective user was previously denied access.

29. (Original) The system of claim 27, further comprising:
means for prohibiting the respective user access to a particular application to which the respective user was previously granted access.

30. (Original) The system of claim 27, further comprising:
means for accessing the report from a remote location from the computer.

31. (Original) The system of claim 27, further comprising:
means for storing the report of the respective user.

32. (Original) The system of claim 22, further comprising:
means for updating the report with new collected information after an occurrence of at least one particular computer event.

33. (Original) The system of claim 32, wherein the particular computer event includes the respective user logging on the computer.

34. (Original) The system of claim 32, wherein the particular computer event includes the respective user logging off the computer.

35. (Original) The system of claim 32, wherein the particular computer event includes the start up of the computer.

36. (Original) The system of claim 22, further comprising:
means for collecting additional information on which services of a designated computer application the respective user is attempting to access on the computer; and
means for compiling the additional information in a report regarding the respective user.

37. (Original) The system of claim 36, wherein the report further includes a duration of time the respective user has accessed a particular service of the designated computer application.

38. (Currently Amended) The system of claim 36, wherein the report further includes <u>identification of one or more chronological</u> times <u>in which</u> the respective user has accessed the particular service of the designated computer application.

39. (Original) The system of claim 36, wherein the report includes the services the respective user is denied access to according to the settings specified by the administrator.

40. (Original) The system of claim 36, wherein the report includes the services the respective user is granted access to according to the settings specified by the administrator.

41. (Original) The system of claim 36, further comprising:
means for authorizing the respective user to have access to a particular service to which the respective user was previously denied access.

42. (Original) The system of claim 36, further comprising:
means for prohibiting the respective user to have access to a particular service to which the respective user was previously granted access.

43. (Currently Amended) A method for controlling computer access, comprising the steps of:
specifying settings to regulate access to a computer for at least one user of the computer;
controlling access to the computer according to the specified settings;
collecting information on which <u>local</u> computer applications the respective user is attempting to access on the computer, and
compiling the information into a report of the respective user, the report being viewable by an administrator of the computer<u>, the report being made accessible to an administrator of the computer</u>.

44. (Currently Amended) The method of claim 43, further comprising ~~the step of~~:
specifying in the report a duration of time the respective user has accessed a particular computer application.

45. (Currently Amended) The method of claim 43, further comprising ~~the step of~~:
specifying, in the report, identification of one or more chronological times in which the respective user has accessed a particular computer application.

46. (Currently Amended) The method of claim 43, further comprising ~~the step of~~:
specifying in the report the computer applications the respective user is denied access to according to the settings specified by the administrator.

47. (Currently Amended) The method of claim 43, further comprising ~~the step of~~:
specifying in the report the computer applications the respective user is granted access to according to the settings specified by the administrator.

48. (Original) The method of claim 43, wherein the report is in the form of a web page.

49. (Currently Amended) The method of claim 48, further comprising ~~the step of~~:
authorizing the respective user access to a particular application to which the respective user was previously denied access.

50. (Currently Amended) The method of claim 48, further comprising ~~the step of~~:
prohibiting the respective user access to a particular application to which the respective user was previously granted access.

51. (Currently Amended) The method of claim 48, further comprising ~~the step of~~:
accessing the report from a remote location from the computer.

52. (Currently Amended) The method of claim 48, further comprising the step of: storing the report of the respective user.

53. (Currently Amended) The method of claim 43, further comprising the step of: updating the report with new collected information after an occurrence of at least one particular computer event.

54. (Original) The method of claim 53, wherein the particular computer event includes the respective user logging on the computer.

55. (Original) The method of claim 53, wherein the particular computer event includes the respective user logging off the computer.

56. (Original) The method of claim 53, wherein the particular computer event includes the start up of the computer.

57. (Currently Amended) The method of claim 43, further comprising the steps of: collecting additional information on which services of a designated computer application the respective user is attempting to access on the computer, and compiling the additional information in a report of the respective user.

58. (Original) The method of claim 57, wherein the report further includes a duration of time the respective user has accessed a particular service of the designated computer application.

59. (Currently Amended) The method of claim 57, wherein the report further includes identification of one or more chronological times in which the respective user has accessed the particular service of the designated computer application.

60. (Original) The method of claim 57, wherein the report includes the services the respective user is denied access to according to the settings specified by the administrator.

61. (Original) The method of claim 57, wherein the report includes the services the respective user is granted access to according to the settings specified by the administrator.

62. (Currently Amended)   The method of claim 57, further comprising ~~the step of~~:

authorizing the respective user to have access to a particular service to which the respective user was previously denied access.

63. (Currently Amended) The method of claim 57, further comprising ~~the step of~~:

prohibiting the respective user to have access to a particular service to which  the respective user was previously granted access.
